Sitting down on a Fiji chair may not physically take you to a far away tropical island, but you'll certainly feel a similar sense of relaxation. Fiji chairs are all about life experiences, and creating memorable seated moments.

All Fiji chairs are made with powder coated aluminum to prevent rust and deterioration. We then wrap them in DuraWeave wicker to ensure durability as well as give them a touch of style. Because our DuraWeave comes in a variety of woven patterns and colors for you to choose from, you'll be able to customize your own Fiji chair.

Unwind, relax and enjoy good company. The Sierra is just the right amount of style and comfort, for whatever purpose you choose to use it for.

Sierra chairs are constructed with a powder coated aluminum frame to prevent rust and deterioration. We then fully wrap them in resin DuraWeave to ensure durability and give them a classic wicker look. Unlike standard wicker, the Sierra will withstand the test of time.

The Tuscan life is one of self discovery and exploration, yet involves taking time for relaxation. The resin wicker Tuscanna chair allows for ultimate relaxation and self-reflection, while soaking in the sun.

Resin wicker won't deteriorate as quickly as standard wicker. Because our furniture is made with powder coated aluminum, we ensure it will be enjoyed by many for years to come.

Zen, by its very definition, is a moment of meditation. A moment where you clear your mind of all thoughts and words to just experience your present moment and surroundings.

To help you achieve a state of enlightenment, we have developed the Zen Collection to help you stop thinking and worrying so you can just start enjoying your indoor or outdoor environment. Because it's made with resin wicker and a heavy duty powder coated aluminum frame, this furniture is strong both inside and out.

From time to time there may be minor variations in color and texture of finishes. **THIS WARRANTY SPECIFICALLY DOES NOT COVER SUCH MINOR VARIATIONS IN COLOR AND TEXTURE OF FINISHES.**

THIS WARRANTY IS SUBJECT TO THE FOLLOWING CONDITIONS:

1. Source Furniture recommends that powder coated finished products located less than 1000 feet from the seashore (salt water) be systematically fresh water rinsed (at least bi annually), so as to prevent the accumulation of salt deposits.

2. CARE AND CLEANING INSTRUCTIONS

Source Furniture would like for all of our clients to continue to enjoy their furniture and accessories for many years by using these simple procedures to ensure longevity:

Frame Finishes

To maintain your frame finish, Source Furniture recommends using a mild soap and water solution. Use ¼ cup of soap to one gallon of water. Use a soft rag or sponge to clean frames. After applying the soap and water simply rinse off with clean water. Do not use bleach on any frames, as this will void all warranties.

Seaside Usage

Source Furniture recommends regular cleaning to avoid buildup of oxidation. Source Furniture recommends waxing the frames quarterly to help with their longevity. Some car waxes can be used for this purpose. Failure to clean and maintain your furniture may result in blistering and may void any warranty. A log of your cleaning, done at regular intervals, must be kept in order to maintain your warranty coverage.

Vinyl Strapping

To maintain the color and longevity of your vinyl strap, proper cleaning is recommended by using mild soap and water. The same measurements can be used as the frame finish cleaning solution. Source Furniture also offers a Strap Cleaning Solution. Please contact us for details on our Cleaning Solution. At no time can bleach be used on vinyl strapping. This will void any and all warranties against breakage and discoloration.

Sling Fabric

Sling fabric can be cleaned by using a tablespoon of liquid dish washing detergent and two table spoons of bleach mixed with a gallon of water. Use a soft brush to apply the cleaning solution and rinse off thoroughly with clean water. You can also use a brush or vacuum.

Cushions

Cushions made with Sunbrella fabrics can be washed by briskly sponging with a solution of mild soap. For stains, a fabric spot remover can be used. Please follow all directions for the spot remover products. For Textilene fabrics, a mild soap mixed with two tablespoons of bleach and a gallon of water can be used. For cleaning with this solution a soft brush is recommended, followed by a thorough rinse with clean water.

Other Maintenance

Source Furniture recommends a thorough check of all moving parts such as hinges, nuts and bolts periodically. With failing to maintain these parts, disassembly or breakage may occur and void the warranty.
